ABOUT INDIA MINING WEEK 2027

India Mining Week 2027 stands as India's Largest Mining Summit, serving as the definitive gathering of government leaders, policymakers, mining companies, investors, technology innovators, equipment manufacturers, and industry stakeholders from around the world. The event provides a unique platform to discuss policy, innovation, sustainability, and investment opportunities while fostering strategic partnerships that will shape the future of mining, minerals, and resource development.

As India accelerates investments in infrastructure, manufacturing, energy security, and critical minerals, the mining sector is emerging as a key driver of economic development. **India Mining Week 2027** will provide a dynamic platform for knowledge exchange, business networking, technology showcase, policy dialogue, and investment opportunities across the entire mining value chain.

Featuring a high-level conference, international exhibition, technical sessions, and strategic networking opportunities, the event aims to foster partnerships, showcase innovation, and support the development of a modern, efficient, and sustainable mining ecosystem while strengthening India's position as a global mining and resource development hub.

Mining, Geological & Metallurgical Institute of India

About MGMI

With more than 3,000 members representing professionals in different fields of mineral based industries; technocrat planners and policymakers in the private and public sectors at State and Central levels; experienced managers in different sub-disciplines ranging from evaluation of resources to their eco-friendly exploitation; academicians/research workers and students from geology, mining and metallurgy streams; chief executives of most of the organisations related to 'Mines and minerals' in India.

The Institute is now recognised to be one of the preferred professional societies for all appropriately qualified personnel associated with the study and practices of the minerals and energy industries in India.

Prior to Independence, the Government of India used to seek suggestion/comments of the institute on wide-ranging issues from "induction of safety measures in underground mines" to "income tax" slabs for small scale mines. The practice continued in the post-independence era.
